NATIONALITY: ETHIOPIAN
DATE OF BIRTH: JAN 07,2002

Summary

Highly motivated and detail-oriented Information Systems graduate with a strong background in web and mobile app development. Seeking a challenging position as a Full Stack Developer to leverage programming skills and contribute to innovative projects.

Skill Highlights

Technical Skills:

Languages: Python, PHP, JavaScript, C++, C#, Java
Web Development: HTML, CSS, React, VueJs, Redux Saga, Redux Toolkit
Frameworks: Django, Laravel, CodeIgniter
Database: MySQL
Mobile App Development: React Native
Desktop App Development: C#
Other: MERN Stack

Soft Skills:

Communication: Effective communicator with a good command of communication.
Work Ethic: Hardworking and committed, demonstrated through successful remote internships.
Leadership: Experience in a team lead role, with a focus on confidentiality.
Adaptability: Fast learner, motivated, and eager to explore new technologies.

Experience

Professional Experience:

Full Stack Developer Intern | Ethiopian Science and Technology Agency, Hawassa

3 months on-site internship

- Collaborated with a team to develop and implement web applications.
- Utilized Python with Django, PHP with Laravel and CodeIgniter for backend development.
- Contributed to mobile app development using React Native.
- Gained valuable experience in MERN Stack development.

Remote Intern | Codesoft and Codeclause

- Engaged in remote internships, contributing to real-world projects.
- Demonstrated proficiency in various programming languages, including C++, C#, PHP, Python, and Java.

Projects:

1. Personal Portfolio Website

- Developed and designed a personal portfolio website to showcase skills, projects, and professional experience.
- Implemented a clean and responsive design for optimal user experience.
- Integrated various technologies, including HTML, CSS, and JavaScript, to create a visually appealing and informative platform.

2. Full Stack Comprehensive HRMS with PHP

- Spearheaded the development of a comprehensive Human Resource Management System (HRMS) using PHP.
- Implemented features for employee onboarding, performance tracking, and payroll management.
- Ensured data security and privacy through robust authentication and authorization mechanisms.

3. Laravel Restaurant Reservation System

- Designed and implemented a reservation system for restaurants using the Laravel framework.
- Streamlined the booking process for customers and facilitated efficient management for restaurant staff.
- Integrated real-time updates and notifications for seamless communication between customers and the restaurant.

4. Python Telegram Bots

- Developed Python-based Telegram bots with automation capabilities.
- Implemented functionalities such as real-time information retrieval, automated responses, and data analysis.
- Explored the Telegram API to create interactive and dynamic bot interactions.

5. Employee Management System with C++

- Created an Employee Management System using C++ to streamline HR processes.
- Implemented features for employee data storage, retrieval, and basic performance tracking.
- Designed an intuitive user interface for easy navigation and functionality.

6. E-commerce Website for Guaro.com

- Contributed to the development of an e-commerce website for Guaro.com.
- Implemented secure payment gateways, order tracking, and inventory management features.
- Collaborated with a team to ensure a seamless online shopping experience for users.

Education:

Bachelor of Science: Information Systems – 2021-2024

Addis Ababa University, Ethiopia

Software Eng. – 2022-2023

ALX Africa, Kenya

Professional Memberships:

Google Developers Group

Technology Club at Addis Ababa University

Consultant at Eagle Tech and Business Consultancy

Emerging Technologist at Millenium Fellowship
